PROFILE

Computer Science graduate (S.Kom) from Mikroskil University, I come with a strong passion for learning and adaptability. Although I have no any formal professional experience I am an enthusiastic learner with foundational skills gained through academic, personal project and collaboration with teams. I'm eager to join a team where I can make meaningful contributions and learn from experienced professionals.

PROJECTS

KEDAI IMAJI - Full Stack Coffee Shop Web Application (Apprenticeship)

June 2024

Studi Independen Project at LearningX

- Developed a responsive coffee shop web application with Python Flask backend, Bootstrap frontend, and MongoDB database featuring a robust admin dashboard for menu and user management
- Implemented secure user authentication system with role-based access control (admin/customer), session management, and JWT tokens
- Designed and built an intuitive cart system for customers with real-time order processing and automated order status updates

GIGNESIA - Full Stack Freelancing Web Application (Apprenticeship)

December 2024

Studi Independen Project at VOCASIA

- Developed a full-stack freelancing platform using React.js for the frontend, Node.js/Express for the backend, and MongoDB database, featuring a comprehensive freelancer-client marketplace system
- Built an advanced authentication system with JWT tokens, role-based access control (freelancer/client), and secure session management for user data protection
- Integrated Midtrans payment gateway for secure financial transactions, enabling real-time payment processing and automated transaction status updates
- Implemented a responsive review and rating system for services, allowing clients to provide feedback and helping maintain service quality standards
- Created a real-time notification system for order updates, messages, and payment confirmations to enhance user communication and engagement

EDUCATION

Bachelor of Informatics Engineering | GPA 3.92

2021 - 2025

Mikroskil University
